

# VENTOS-SERIES INDUSTRIAL VACUUM CLEANERS

COMPACT AND EFFICIENT – FOR CONVINCING CLEANING RESULTS

# VERSATILE, POWERFUL AND COMFORTABLE

Whether at the construction site or in the salesroom or in the workshop, whether in combination with power tools or for sucking up liquids: The Ventos-series is ideal for all cleaning tasks. An automatic start-up, an automatic switchoff in case of the suction of liquids and the large drain plug ensure safe operation. The extra-long power cable and the suction hose offer a large action radius, and a wide range of accessories enables a thorough work.

**PRACTICAL**

Handle with a holder for the suction tube for safe transport

**TIDY**

Space-saving stowage of pipes, hose, cable and accessories

**COMFORTABLE**

Socket outlet for power tools, with automatic start-up, automatic switch-off and overrun function

**ROBUST**

All-terrain chassis for mobility and high stability

**SIMPLE**

Drain screw for a problem-free draining of liquids after the sucking up of liquids

**AS STANDARD**

Extensive accessories to accomplish different cleaning tasks

Fig.: Ventos 32 L/AC | 580020

**CONTROL PANEL**

With the Ventos series, the user always has all functions in view. The control panel allows infinitely variable regulation of the suction power. In the case of the Ventos AC, the control panel also allows to set the interval for automatic filter cleaning.

**AUTOMATIC START-UP**

An integrated socket allows the connection of power tools (max. 2200 W). The automatic start-up function switches the vacuum cleaner on when the tool is switched on, and the run-on function ensures that the suction hose is completely emptied after the tool is switched off.

**PRINCIPLE OF ARRANGEMENT**

This means that the accessories are always within reach. Power cable and suction hose can be spooled and stowed easily. A semicircular holder on the top, into which the suction tube can be inserted, allows the industrial vacuum cleaner to be carried comfortably by holding the suction tube securely in the recessed grip.

# THE FILTER CLEANING MAKES THE DIFFERENCE

## MANUAL FILTER CLEANING – VENTOS PC-MODELS

The manual Push-Clean filter cleaning of the Ventos PC ensures constant suction power and optimum cleaning performance. After pressing the push button, the airflow is diverted through the dust filter and it is cleaned in no time. The dirt simply falls into the collection container or the inserted dust bag, and the Ventos regains its full suction power.

## AUTOMATIC FILTER CLEANING – VENTOS AC-MODELS

The Automatic-Clean filter cleaning function of the Ventos AC offers added convenience. Thanks to an additional rotary knob, it is possible to set the intervals at which an automatically triggered air blast cleans the flat pleated filter. This enables long filter service lives and ensures uninterrupted and continuous operation at full suction power.

# OPTIONAL SPECIAL ACCESSORIES

584028

### Floor nozzle | 450 mm

- Made of aluminium, light and robust
- With exchangeable brush and rubber strips

584024

### Turbo brush | 280 mm

- For the thorough cleaning of carpets
- With driven brush roller

584018

### Carpet nozzle | 280 mm

- For carpets and smooth surfaces
- Adaptable to the respective surface

584009

### Upholstery nozzle | 109 x 145 mm

- For cleaning textile surfaces
- Suitable for upholstered furnitures, car seats etc.

584012

### Wide nozzle | 250 x 45 mm

- For use in narrow places
- Flat and wide suction mouth

584017

### Universal brush nozzle | 230 mm

- For simultaneous vacuuming and brushing
- For the removal of coarse dirt

584020

### Suction brush | 235 mm

- Gentle pet care without tiresome shedding
- Safe hold thanks to velcro fastener

584019

### Suction currycomb | 240 mm

- Removes gross impurities from animal skins
- Safe and comfortable in the hand

30 liter - 454511  
40 liter - 454521

### Dust bag

- Tear resistant fleece filter bag for dry vacuuming
- 5 pieces

NEW!

457120

### Folded filter Wet + Dry

- Suitable for wet and dry vacuuming
- moisture-resistant + rot-proof

# TECHNICAL HIGHLIGHTS

## SCOPE OF DELIVERY

- **Suction hose** | antistatic | l: 4 m (DN 32)
- **Extension tube** | 2 pieces | each l: 480 mm
- **Hand tube** | curved | with air slide
- **Folded filter** | 1 piece
- **Dust bag** | 5 pieces
- **Disposal bag** | 1 piece
- **Tool adapter** | Use of power tools |  $\varnothing$  25 mm
- **Floor nozzle** | w: 360 mm | Inserts for wet and dry vacuuming
- **Joint nozzle** | l: 300 mm
- **Brush nozzle** |  $\varnothing$  70 mm
- **Comfort accessories storage**
